## *Grant Report*

---

### **Project Name\***

Name of Project.

Carman Collegiate PAC - Music

### **Date**

01/15/2025

### **Amount Awarded**

\$3,875.00

### **Project Outcomes\***

How did you achieve the outcomes you identified in you application? (Don't forget to tell us about involvement from other members or groups from the community that helped make your project a success)

We were able to repair and clean 41 instruments for the band program. We also purchased 13 acoustic guitars with humidifiers for a new guitar club, and for use in the music program. We held a successful 90s themed Trivia Night to help support the music program. Several local businesses donated prizes, and Boyne River Bistro hosted us. The grant and the proceeds from the Trivia Night allowed us to make these purchases.

### **Benefits to the community\***

How has the project helped the people or improved the community it was intended to serve? (Community Vitality, Healthy Populations, Environmental Impact, Arts Culture and Heritage, and Education)

Our brass instruments are all in working condition now. We were able to start a guitar group, which involves students who may not otherwise participate in the music program that uses the more traditional band performance instruments.

### **Community Awareness\***

Describe any media coverage the project received. How was the public educated or made aware of your project?

We advertised the project in the advertising for our Trivia Night. We also did a presentation at the school's Arts Appreciation Night in the spring.

### **Your organization acknowledged CAF through\***
